The Vision

To revolutionize the dynamics of valet parking for everyone who owns a car through the use of a mobile platform that provides a cashless and ticketless transaction and also providing an easy way to park and retrieve vehicles at any location.

The Mission

To connect our users to insured, trained and vetted valet drivers; and to provide ease in every valet parking experience at the busiest venues.

Problem

From **searching for parking spots** to **counter check-in** to **security check**, airport travels can be an entire ordeal. Parking your car yourself at the airport can disrupt your whole travel plans due to the following reasons;

1

Shortage & long search of affordable parking spots.

3

Delayed shuttle & hostile shuttle bus service.

2

Traffic congestion in & out of the airport.

4

Distance between airport & parking Lot.

Solution

On- Demand Valet Parking Mobile App.

A mobile platform that connects you with insured, trained & vetted valet drivers with just a single tap on your phone.

Park & Retrieve From Airport Terminal.

Hand off vehicle at departure terminal and pickup at arrival terminal. No shuttle bus and no walking long distance.

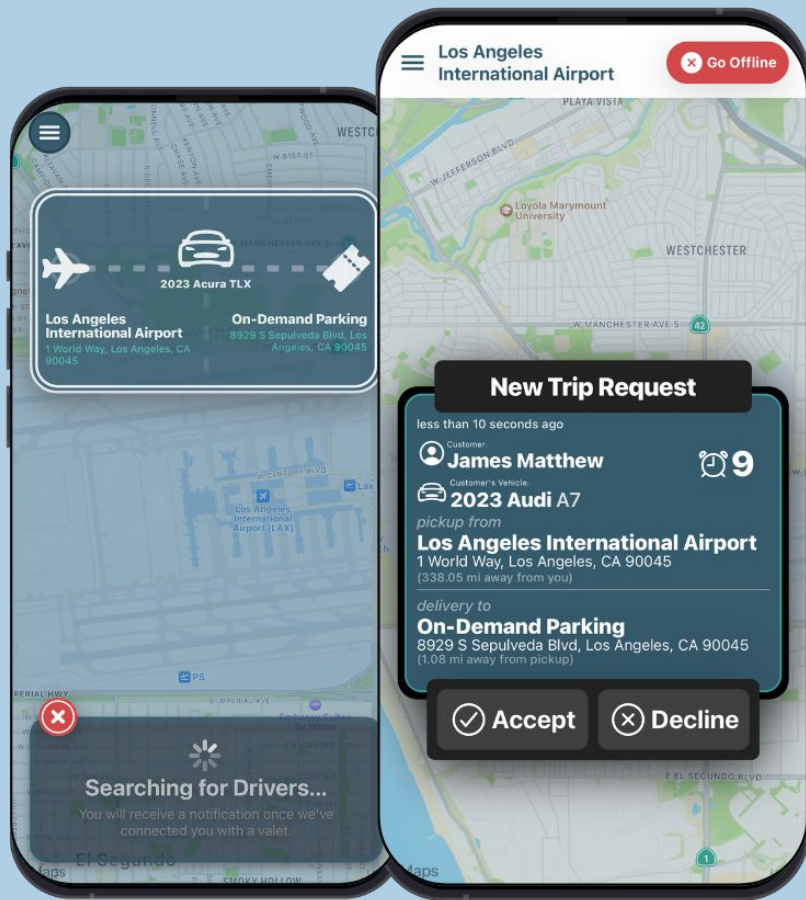

Save Time and Enjoy The Convenience.

Varkn drivers will save you the time and stress of driving in a loop, looking for where to park.

Product

- Get connected with valet drivers with a single tap on your cell phone.
- Vehicle drop-off and pickup at curbside.
- Track vehicle while en-route to parking lot in real time.
- Pay for parking and valet service fee with ApplePay, GooglePay or credit card.

User App

Driver App

Asks

- **An opportunity to run a pilot program at your airport.**

Testimonial

From our trial experiment at Hartsfield-Jackson Atlanta Airport

Peace of mind. I was less worried about the timing of my flights because I knew I would be at the terminal and not in a dark parking lot. I knew I would save time because I wouldn't have to ride a shuttle. It was easy. It was seamless. And finally - I actually would have missed my flight today without Varkn.

-Katy

VIP Experience, very convenient and aspirational (living the good life), photos of car parking location and odometer / gas meter

-Rob

Drop off was flawless, timely and terrific with excellent communication

-Stephanie
